

# Easy-Wave™ & Intelli™ Doors

WAVE HELLO TO THE FUTURE™

To our valued customers,

We are proud to introduce our new Easy-Wave™ doors. Beginning May 1, 2016 all Electric and Pneumatic Interlocking projects released on or after this date will receive the Easy-Wave™ doors. The old version will be phased out due to limited stock on parts and price increases.

## **Benefits of the Easy-Wave™ Electric Interlock**

- Lock Down Feature for Maintenance – Safety
- Low Voltage Plug and Play – For Easy Installation
- Sensor Based One Hand Operation – Increases Reliability
- Capable of combining Electric Interlocks with Pneumatic Interlocks
- Monitoring System – Real-Time Chute Status, Streamlines Maintenance

### ***Options:***

- Building Automation System (BAS) Compatible – Ability to Connect to Chute Accessories

## **Benefits of the Easy-Wave™ Pneumatic Interlock**

- Hands Free – ADA Compliant
- Lock Down Feature for Maintenance – Safety
- Sensor Based Operation – Increases Reliability
- Low Voltage Plug and Play – For Easy Installation
- Monitoring System – Streamlines Maintenance, Real-Time Chute Status

### ***Options:***

- BAS Compatible – Ability to Connect to Chute Accessories

As a bonus we have developed the Intelli™ Electric and Pneumatic Interlock doors which are available now and compatible with our Recycling Units, UMT-200 Series™ and UMT-300 Series™. Our Intelli™ door is designed for arenas, stadiums, hospitals, high-end hotels and high-rise apartment buildings by having the ability to tie into the BAS, network with compactors, sorters, louver vents, wash-down devices, send text/emails to maintenance staff, essentially anything the owner and/or customer desires to control or communicate with our chute system.

## **Benefits of the Intelli™ Electric Interlock and Intelli™ Pneumatic Interlock**

### ***Options:***

- BAS Compatible
- Text/Email Capabilities
- Full Cart/Container Detection
- Compactor Full/Jammed Detection
- Lock Down Feature for Maintenance and Safety
- Monitoring System LCD Display at Every Door for Real-Time Chute Status

Regards,
